All Mouth Gallery presents 'SPRING FLING', a group show including work by Jasper Appleby-Sherring, Plum Cloutman, James Owens and Oliver Pearce. 'Spring Fling' brings together four artists' verdant, delicious explorations of nature, plant life and gardens. Since the first UK lockdown, many of us have developed a heightened awareness of England's changing seasons. Throughout London, as the months grow warmer again, glimpses of tomato plants growing on doorsteps, herbs on window sills and thriving allotments are more and more common. We all crave a little green patch of our own. Though we don't always notice the tangling weed pushing through cracks in the walls or the tiny clovers amongst the grass, we rely on the plant realm to survive in so many ways. The botanical world is a vast network of multiplicities, of curiosity, entanglement, folklore, fantasy and magic. The dark days of winter are over, so slip into the greenery, kick off your shoes and join our Spring Fling!
